

Sprayer

Industry Line

The sprayers of the series Industry Line are special devices for extraordinary difficult applications such as car wash, oil platforms or technical cleaning applications.

They are resistant to lots of chemicals which are used in industry.

Due to the acid-resistant lance, the viton seals and the extremely durable high-pressure container the devices are designed for the most difficult cleaning applications. Safety for the user is absolutely guaranteed.

Field of application

- » Oil Industry
- » Chemical Industry
- » Control of epidemics
- » Workshops and factories
- » Disinfection and rat control

Mini Line

The trigger sprayers of the series Mini Line are used for manual spraying and sprinkling of plants in greenhouses, gardens, on terraces and balconies.

The sprayers are equipped with technically advanced nozzles with adjustable stream angle. They are perfect devices for spraying liquid fertilizers, chemicals and for sprinkling water. All parts of the sprayers are made out of durable materials which are resistant to chemicals.

The special spraying head of the Mini assures a very fine stream of liquid so that it does not weep.

Equipment

- » Precision valve for an ideal spraying of liquids
- » Ergonomic spraying head is fitted with an easy pusher for spraying
- » Filter armed at the little intake pipe
