5.2   Versions

The G5 Pocket transmitter exists in the following versions:

G5-P3A   G5-P4A   G5-P6A   G5-P8A   G5-P8B   G5-P8C

Model	Functions
G5-P3X	3 Push buttons
G5-P4X	4 Push buttons
G5-P6X	6 Push buttons
G5-P8X	8 Push buttons

X indicates A,B,C,... for different printed symbols on the buttons

5.3   Functionality

The G5 Pocket systems are required to be configured prior to operation but normally this is done already before delivery, refer to programming section in this document for further information.
The push buttons are easily programmed to activate any output or series of functions.
Button definitions include momentary, interlocked, non-latched or latched output.
